	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the						
follo	wing limitations and conditions:						
	This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 29016 is issued subject to the terms and conditions imposed in said Permit 29016 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed a yearly
